EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Zborovosky on August 19, 2004.

The application has been amended as follows:

In claim 11, line 3, "by a spring" has been changed to "by the spring element" to correspond to "a spring element" in claim 10, lines 2 and 3.

In claim 12, lines 2 and 3, "wherein a spring is a spring selected from the group consisting of a helical spring and a leaf-shaped spring" has been changed to "wherein the spring element is a leaf-shaped spring" because the helical spring is only disclosed as part of the embodiment in Fig. 1 and claims 1-5 and 7, whereas the leaf-shaped spring is part of the embodiment in Fig. 2 and claims 10-12.

On page 1, lines 27 and 28, of the specification, "Advantageous embodiments of the subject matter according to the invention are listed in subclaims 2 through 10." has been deleted because subclaims 2 through 10 no longer are of record.

In the abstract, in lines 1 and 4, "comprises" has been changed to "has" to avoid legal phraseology in the abstract.
